

THE SCIENCE...

Dermanyssus Gallinæ (common names Red Mite and Feather Louse) are well known parasites that live in lofts, nesting boxes and on pigeons.

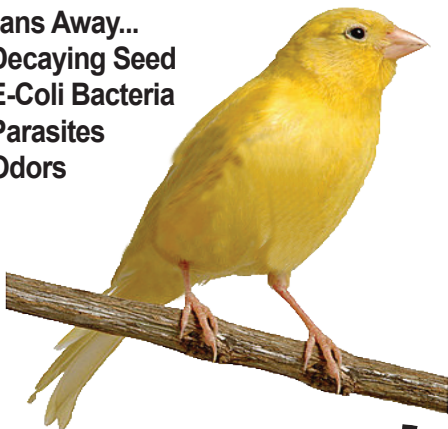

Canary Protector is a natural and organic product that cleans away parasites that live on the bird as well as in cracks and crevices.

Effective on cleaning away the eggs, larvae, pupae and adult insects.

CANARY PROTECTOR

Cleans Away...

- Decaying Seed
- E-Coli Bacteria
- Parasites
- Odors

Non-Toxic!
All-Natural

16 FL. OZ. (473 mL)

Care Free

Enzymes

DIRECTIONS:
Remove bedding material, spray entire habitat with a fine mist, then wipe surface with a clean cloth. Rinse and let dry. Replace bedding material with new material and spray with fine mist for future protection against insects before introducing bird. Each week clean living quarters thoroughly with Canary Protector.

BEST RESULTS: Add one (1) ounce per two (2) gallons of water and allow birds to bathe. Spray living area and surrounding grounds every other day for first week then weekly as needed.

BIRDS: Can be sprayed down, keep spray away from face and eyes, eye irritation may occur.

ODOR:
Weekly, spray litter to control ammonia odors. Ammonia odors will disappear in minutes and instantly dissolves bird droppings.

SAFE:
Safe to apply directly onto bird. Safe on painted surfaces.

NOTE:
SAFE. No restrictions for animals when used as directed. Do not spray around face or eyes of any animal. Contents are highly concentrated. Follow directions.

Contents:
IPS-CareFree Enzymes represents that this product qualifies for exemption from registration under the 25(b) FIFRA.
